

Subscribe now for £48+VAT to give all the staff in your setting access for a year.

Visit [bloomsburyearlyyears.com](http://bloomsburyearlyyears.com) and click on the **Subscribe Now** button to fill in our simple online form.

If it's easier, contact us by email ([hello@bloomsburyearlyyears.com](mailto:hello@bloomsburyearlyyears.com)) or phone on 01634 729892.

'It's the resource you need to give you inspiration to be inspirational.'

**Julie-Ann McCulloch**  
Specialist EAL teacher, EYFS – Year 9

'I found the activities easy to save, share or print out with clear, concise instructions and unlimited staff number usage.'

**Andrea Wooldridge**  
Primary teacher for South View Infant & Nursery school

'The One Potato, Two Potato activity provides a great practical way to explore this concept... There is just so much on this website that can support all practitioners with their planning so that they can provide exciting and motivating activities.'

**Karen Mann**  
Early Years Teacher, Essex

# Introducing Bloomsbury Early Years

Bloomsbury Early Years is a subscription website with thousands of ideas for early years settings. The activities are sorted and organised by EYFS area, topic, Characteristics of Effective Learning, age and more, providing great support and fresh ideas for your planning.

Whether you need activities for cookery, outdoors, or learning maths through stories, Bloomsbury Early Years has got it covered. With new ideas added every term, it helps you create inspirational learning opportunities in your setting and keep your practice fresh and relevant.

## Who is Bloomsbury Early Years for?

Bloomsbury Early Years is perfect for anyone working with children in the Early Years. It has activities and ideas for those working with babies, toddlers and 3-5 year olds, and is suitable for childminders, nurseries and schools' Foundation Stage (nursery and reception).

The subscription cost of £48+VAT provides full access for all adults working within a single site setting. Each adult can create a personal area and save their favourite ideas.

## How it works

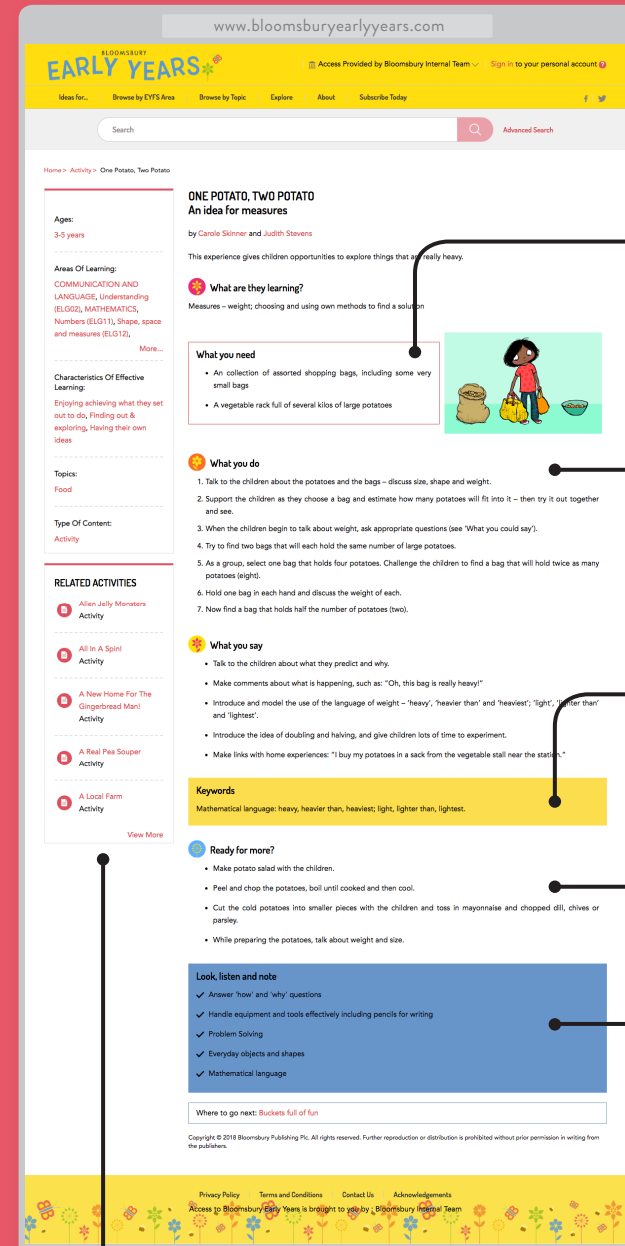

Bloomsbury Early Years is a huge bank of ideas and activities for adults working in early years settings. Each activity uses cheap or easy-to-find resources, gives step-by-step instructions and makes the links to learning clear and simple.

The 'Ideas for...' pages help you jump straight to activities on a particular theme, or you can **browse and explore** the full range.

You can **filter search results** by choosing options in the left hand menu. This means that if you want an activity for 3-5 year olds, using water, for a particular season, that works on motor skills, you'll be able to find it!

You can **access the site** by username and password or IP address so that all devices within the setting are automatically logged in.

All activities can be **saved, printed and shared**, and all staff in your setting can have full access to everything.

Helpful hints gives practical advice and safety instructions.

What you need lists the equipment, space or resources the activity requires. We try and keep them cheap (or free) and easy to find.

What you do and What you say guides you simply and clearly through delivering the session, with helpful prompts for conversation.

Keywords are highlighted and provide a reminder of good words to be revisiting throughout the activity.

Ready for more? gives ideas for next steps and how to develop the activity further.

Look, listen and note links the activity with Development Matters statements – a useful guide when assessing and planning where to go next.

Panel at side is where you can see an overview of curriculum links, Characteristics of Effective Learning, topics covered and age suitability.
