# Every Child can Achieve their Potential in Maths

WORKING WITH YOUR SCHOOL

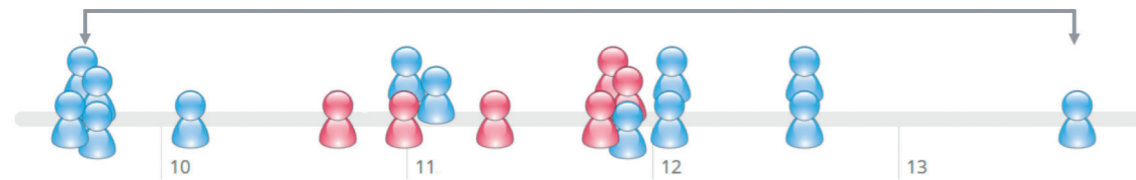

[www.whizz.com/schools](http://www.whizz.com/schools)

# The Challenge Schools Face

Every child is unique.

That's something to celebrate, but it also creates a challenge in the classroom: how can one teacher match their planning, teaching and marking to meet the individual needs of 30 children, with less than an hour for each lesson?

**The Multi-Year Gap in Maths Age**  
 Maths-Whizz Class Report: Research from Whizz Education shows that teachers consistently have to bridge a multi-year ability gap in maths.

In fact, the challenge doesn't stop there. Every child has a unique learning profile in maths, with strengths and weaknesses across different topics.

To progress in maths, every child needs a personalised approach. That's why we created Maths-Whizz, the unrivalled online service for schools.

## Our Approach

At Whizz Education we understand that, just like every child, every school is unique.

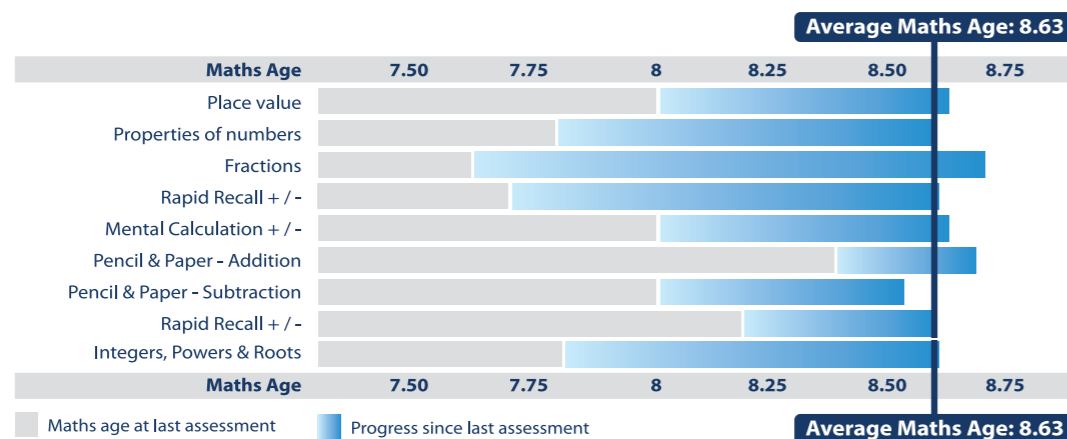

We partner with schools on an individual basis. The professional training, support and insight we provide is as important as our online service.

That online service is called Maths-Whizz, and it's proven to help schools raise standards;

**Maths-Whizz increases student progress to 18 months in the first year.\***

### Increasing Student Progress

Maths-Whizz Student Report: The grey bars show starting strengths and weaknesses; the blue bars show improvement after a year learning with the Maths-Whizz Tutor.

\*Research by Whizz Education — conducted with over 12,000 students and verified by independent experts — found that students who used Maths-Whizz for 45–60 minutes a week increased their Maths Age, on average, by 18 months in the first year of use.

# Why Partner with Us?

With Maths-Whizz, we'll help you to:

**Build the foundations every child needs:** the confidence, knowledge and skills to achieve deep mathematical learning. Our virtual tutor constantly adapts lessons to each child's unique learning profile, accelerating progress and filling in the gaps for teachers.

**Instantly spot learning gaps and continuously monitor maths progress.** Our live reporting gives you insights into learning at a glance, and the tools to take action with a click.

**Achieve rich, rewarding maths teaching.** Teachers' Resource is the ultimate maths teaching toolkit, giving you everything you need to plan and deliver your perfect maths lesson.

## Working Together

We'll work with you every step of the way.

Based on your curriculum goals and resources, we'll build a unique implementation for your school, including CPD-certified training and ongoing support from your dedicated member of our specialist Whizz Education team.

To make sure you keep improving, we'll provide professional insight and help you maximise results with Maths-Whizz. We'll help you to raise the profile of maths across your school with special assemblies, workshops and national competitions.
