What makes Sumdog different?

- ▶ Unlike other maths practice platforms, Sumdog's games work independently from the questions. This means children can choose their favourite game, keeping them engaged and wanting to practise maths!
- ▶ The high-quality games can be used to practise any maths topic at any level. Supporting those who need extra help and challenging the more able, Sumdog's adaptivity ensures pupils are always working at the right level.
- ▶ Sumdog covers all areas of the maths curriculum - not just times tables and number bonds! The updated curriculum alignment makes it even easier to set personalised practice that links directly to what you have been teaching in class.

Personalised learning

Set targeted, differentiated maths practice for individuals or small groups in minutes.

The questions are written for the National Curriculum and directly match what you've been teaching in class.

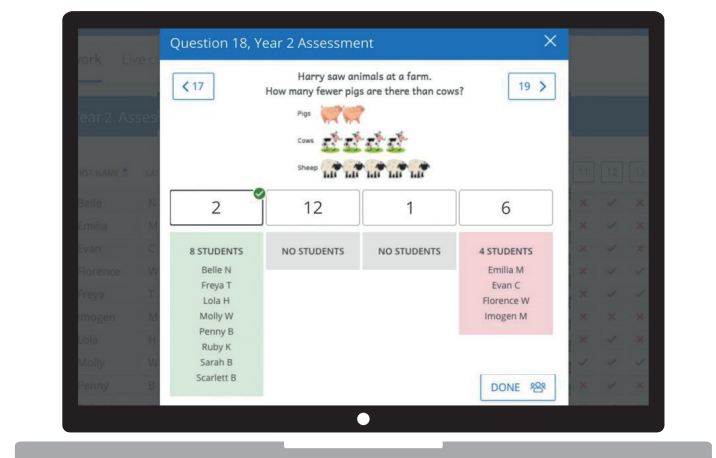

Simply select the area you've been working on and set focused, auto-marked questions. Or let Sumdog's powerful adaptive engine guide children through the topics, always ensuring they're working at the right level – you choose!

Track and assess

Informal, quiz-style assessments and easy-to-digest reports give you a clear picture of your class' performance.

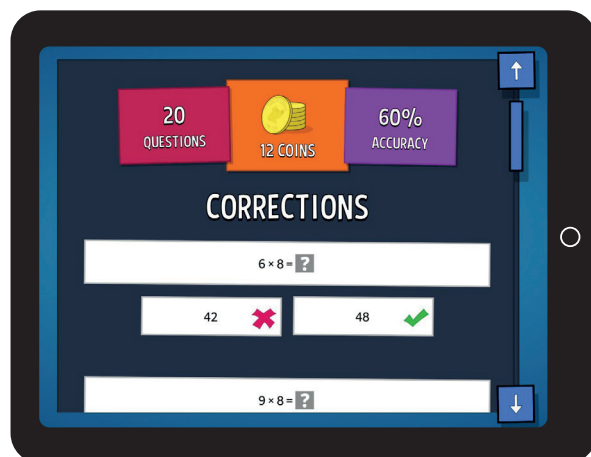

- ▶ Pinpoint gaps in understanding with a bank of ready-made assessments
- ▶ Provide a stress-free setting for children to do their best with extra rewards for effort
- ▶ View data in real-time with easy-to-digest overview reports

Automarked homework

With a Sumdog subscription, it's easy to set homework that directly matches what you've been teaching in class - no more printing or photocopying and we do the marking for you.

Sumdog provides instant feedback to children, helping to address and correct misconceptions in the moment.

Proven to improve fluency

A subscription helps to accelerate pupils' progress, develop fluency and build confidence.

Using Sumdog for 30 minutes a week almost doubled children's fluency progress

This study was published in the *Impact Journal of the Chartered College of Teaching*.

Over 5,000 UK schools use Sumdog for maths practice

1.5 million children use Sumdog to practise maths

193 million maths questions answered in the last year

Ideal for maths homework

We love using Sumdog both in class and at home. I really like that I can see how well my pupils are doing and that I can set challenges and specific goals based on the curriculum too."

Mr Campbell, Class Teacher from Motherwell

Sumdog at home

Sumdog is a great tool for the classroom but it's also loved by parents. In fact, it was rated parents' favourite online tool during school closures.

Children can log in from home and continue their maths practice and we're often told they choose to spend their allotted screentime playing Sumdog!

Parents can be confident knowing their child is practising maths in a secure but fun environment, answering curriculum-aligned questions tailored to their level.

My children love the games and are learning so much, without realising it. Not only is it noticeable that they are doing better with their school work and their homework, but also they are picking up newly introduced topics quicker and that gives them more confidence in their abilities."

Cathy Frankland, Parent, UK

**Voted parents' favourite
maths platform***

*According to a survey conducted by Edurio. <https://bit.ly/3ltP9Oi>

Subscribe your school
