

CASE STUDY

Your Favourite Teacher isn't just a fun-filled platform with dazzling visuals. As teachers ourselves, we want to make sure that using YFT saves you time and makes a real difference for the young people you work with!

From homework support to day release, Your Favourite Teacher can support the students at your club to balance their commitments and achieve their best!

Portsmouth Football Club

YFT Lead: Jon Slater

Academy Director of Education

Portsmouth launched Your Favourite Teacher in September 2019 with their Academy Under 15 and Under 16 players. The players are on day release from their schools in order to participate in elite level training, but therefore require support to ensure that they maintain high academic standards.

- Launch event with players and parents
- Competitions to motivate and reward students
- Weekly sessions guided by club staff
- Regular student usage reports
- Study Skills Session run by YFT staff to improve student revision

IMPACT

In just their first term of use, Portsmouth students have completed around 700 hours of learning! The students continue to use Your Favourite Teacher enthusiastically, and enjoying the competition between clubs on the weekly Football League Table.

“The players particularly enjoy the format of the short animated videos that explain the key concepts. The ‘make notes’ facility is a good idea that allows students to capture key ideas that they can recall later. They can quickly identify areas that need to be improved and the resource can be used to check if previous learning is secure.

Students are able to use the resource back in school or college, at home to re visit topics or when travelling to training in an evening. Access by mobile phone is a great way for students to maximise learning or revision opportunities via YFT. Quick and easy to use, YFT has become a brilliant resource, as well as a favourite, for our students to access to aid and support their learning.’
